

Tips And Tricks

- Read the problem twice/thrice, go through it thoroughly, half answer exists within the question itself.
- Don't miss out any basic concepts
- Read the definition carefully
- Concept clarification is more important than solving huge problems
- This is not like other topics, every subtopic of it are interconnected, but the thing is they are easy if you are able to recollect the previous topic of it. Then it will become fun and you can play with questions!!
