Tips and Tricks
L Hospital Rule:

We should use L Hospital rule only when there is a case of f(x)/g(x) and its has 0/0 form or ∞/∞ form.
Use should first check if it has 0/0 form or ∞/∞ form then only we can use it.And its easy to use.
When there is a problem of limit then first thing that should come in mind of every student is L hospital rule and also should check whether its applicable or not.Its the easiest method to find limit.
