

TIPS AND TRICKS

- Always try to make your own notes for every chapter.
- I would suggest that you do not skip this chapter in inorganic this is an important chapter, one or two questions would surely come in JEE.
- Understand all subtopics and terms and ask yourself what is the reason behind it.
- This chapter is memory based, so make sure you revise it many times.

- Understand some concepts by taking practical examples in our environment, so that you will never forget it ever.
- Always remember to revise the chapter in your mind whatever you have learnt in this chapter.
