

## TIPS AND TRICKS

- Always try to make your own notes for every chapter.
- Make sure not to skip this chapter because one or two questions always come in JEE.
- This chapter is memory based, so make sure you revise it many times.
- Understand and remember some terms and examples by taking practical uses in our environment, so that you will never forget it ever.

- Always remember to revise the chapter in your mind whatever you have learnt in this chapter.
