

1) Which type of molecules/polymers have amide linkages?

- (A) Nylon-6
- (B) Nylon-6,6
- (C) Caprolactam
- (D) Dacron

Ans: A, B, C

2) Which of the following are natural polymers?

- (A) Cellulose
- (B) Nylon-6,6
- (C) Orlon
- (D) Teflon

Ans: A

3) Which of the following is a Homopolymer?

- (A) Teflon
- (B) Orlon
- (C) Dacron
- (D) PHBV

Ans: A,B,C
