

Weak forces are-

1. like electromagnetic forces
2. different from gravitational, electromagnetic and nuclear forces
3. like gravitational forces
4. Like nuclear forces

The following table signifies the strength of different forces.

Force	Relative Strength
Gravitational Force	10^{-39}
Electric Force	10^{-2}
Strong Nuclear Force	10^{-13}
Weak Nuclear Force	1

Hence, weak forces are like gravitational forces.
